

GREEN GROWTH TOOLBOX

Wildlife and Natural Resource Stewardship in Planning

A Guide for Planners, Communities and Developers

WHAT IS GREEN GROWTH?

Green Growth means conserving wildlife, habitat and other valuable natural resources as communities continue to grow.

Green Growth Toolbox Handbook 2017 Edition

Cover photos: bog turtle, Jeff Hall, rural cluster development in N.C., urban green infrastructure Raleigh, N.C., Ken Taylor, centralized development pattern, Murphy, N.C., McSween Photography, wild turkey, Dimus

Photo credits throughout the handbook are attributed to the N.C. Wildlife Resources Commission, unless otherwise acknowledged.

CONTENTS

ACKNOWLEDGEMENTS i

INTRODUCTION AND SUMMARY iii

SECTION 1. THE GREEN GROWTH TOOLBOX: How it Works and Why it is Needed

PROJECT OVERVIEW	1
WHY GREEN GROWTH?	3
GREEN GROWTH PAYS DIVIDENDS—10 BENEFITS TO COMMUNITIES.....	7
GETTING STARTED—TEN KEY STEPS TO GREEN GROWTH	13

SECTION 2. CONSERVATION DATA: Interpretation and Usage Recommendations

CONSERVATION DATA FOR GREEN GROWTH: Access and Summary The Natural Heritage Data Explorer	17
THE 3 COMPONENTS AND THE N.C. CONSERVATION PLANNING TOOL	18
COMPONENT 1. Biodiversity and Wildlife Habitat Assessment (“the BWHA”)	19
Data that are part of the BWHA:	
Natural Heritage Natural Areas (NHNA)	20
Natural Heritage Element Occurrence (NHEO) Data	22
Landscape Habitat Indicator Guilds (Core wildlife habitats and corridors)	23
Streams within Subwatersheds with Federally Listed Fish and Mussels	24
Outstanding Resource Waters and High Quality Waters	25
Wild Brook Trout Streams (Mountains only).....	26
Streams	27
Wetlands.....	28
Important Bird Areas	29
COMPONENT 2. Statewide Data to Use in Addition to the BWHA	
Managed Areas (including NC WRC Game Lands)	
Smoke Awareness Areas	
Game Land Hunting Safety Buffer.....	30
Colonial Waterbird Nesting Colony Buffers and Bald Eagle Nest Buffers	31
Floodplains	
The N.C. Conservation Planning Tool Agriculture Assessment	
The N.C. Conservation Planning Tool Forest Assessment	32
COMPONENT 3. Regional Datasets and Habitat Information	33
USING CONSERVATION DATA IN LOCAL PLANNING	33
NATURAL RESOURCE INVENTORIES AND SITE SURVEYS.....	35
LEGEND AND KEY FOR THE BIODIVERSITY AND WILDLIFE HABITAT ASSESSMENT.....	37
STATEWIDE GIS CONSERVATION DATA REFERENCE CHART	38

SECTION 3. HABITAT CONSERVATION RECOMMENDATIONS

NATURAL RESOURCE-BASED LAND USE AND DEVELOPMENT PRACTICES.....	41	
PRINCIPLES FOR MAINTAINING HEALTHY ECOSYSTEMS.....	42	
MAINTAIN AGRICULTURAL DISTRICTS AROUND AND BETWEEN MANAGED AREAS	43	
CONSERVATION RECOMMENDATIONS FOR UPLAND HABITATS		
Upland Forest Habitats	44	
Grassland and Shrubland Habitats	45	
CONSERVATION RECOMMENDATIONS FOR RIPARIAN HABITATS		45
Stream Buffers to Protect Water Quality for Aquatic Life.....	46	
Riparian Forest Habitats and Wildlife Travel Corridors		
Minimizing On-Site Stream Impacts	47	
Floodplains.....	48	
CONSERVATION RECOMMENDATIONS FOR GREENWAYS	48	
CONSERVING WETLANDS FOR DECLINING WILDLIFE	49	
WILDLIFE CONSERVATION IN CONSTRUCTION AND POST-CONSTRUCTION		
Wetland Management Plan Guidelines		
Recommendations for:		
Stormwater		
Sediment and Erosion Control	52	
Impoundments		
Right-of-Ways.....	53	
Landscaping		
The Importance of Habitat Management	54	
REGIONAL DEVELOPMENT PRACTICES	55	
ADDITIONAL INFORMATION.....	55	

SECTION 4. GREEN PLANNING: Enabling Wildlife and Habitat Conservation

SIX STEP CONSERVATION PLANNING PROCESS.....	57
DEVELOPING A CITY OR COUNTY-WIDE CONSERVATION PLAN.	59
EXAMPLE CONSERVATION PLANS	60
GREENING EXISTING PLANS	60
A MENU OF CONSERVATION STRATEGIES.....	61
Implementation Support	
Action Plans	62

Conservation Advisory Boards	
Land Acquisition and Conservation Easements	
Examples	63
Public Works and Utilities	
Incentives	
Education	64
INTEGRATING STATE AND REGIONAL CONSERVATION PLANS	
N.C. Wildlife Action Plan	
N.C. Conservation Planning Tool	
Regional Conservation Plans	65
KEY CONCEPTS FOR ENABLING HABITAT CONSERVATION IN PLANNING	
Land Use Planning	
Transportation Planning	
Wildlife Crossing Structures.....	66
Park and Greenway Plans	
Risk Assessments and Hazard Mitigation Plans	
Watershed Management Plans	67
Farmland Protection Plans	
Strategic and Economic Development Plans	
Green Building and Energy Efficiency Plans	68
PERFORMANCE MEASURES.....	68
EXAMPLE PLANS	69
ADDITIONAL INFORMATION.....	71

SECTION 5. GREENING INCENTIVES AND ORDINANCES: Achieving Green Growth

LAND USE PATTERNS THAT MAINTAIN NATURAL RESOURCES.....	73
Reducing Habitat Fragmentation	74
GREENING INCENTIVES	
Conservation Easements	74
Wildlife Conservation Lands Program and Other Tax Credit Programs	75
Conservation-Based Development Incentives	
Transfer of Development Rights	76
Rural Lands Stewardship Program.....	77
GREENING ORDINANCES	
Protection of Important Wildlife Habitats and Example Ordinances	78
N.C. Model Natural Resources Conservation Ordinance	
Protection of Natural Heritage Sites and Example Ordinances.....	79
On-Site Development Patterns that Conserve Habitat	
How can Green Growth Improve Conventional Zoning?	80
On-Site Development Patterns that Connect Habitat	
Considerations for Effective Natural Resources Conservation	81

Example Zoning Ordinances.....	83
Schematic of an Efficient, Natural Resource Based Land Use Pattern.....	84
Schematic of an Inefficient Land Use Pattern that Weakens Natural Resources ...	85
Urban Service Areas	86
Wildlife Conservation in Development Standards and Example Ordinances.....	87
Conservation and Cluster Subdivisions and Example Ordinances.....	88
Large Lot Subdivisions: Not Ideal but Sometimes in Demand	
Proper Community Wastewater Treatment can Encourage Clustering	90
GREENING HAZARD MITIGATION AND RELATED ORDINANCES	
Stream, Wetland and Floodplain Ordinances and Examples.....	90
Tree Protection and Forest Conservation Ordinances and Examples.....	91
Landscaping and Vegetation Control: Control Invasives and Maintain Native!	92
Steep Slope Protection	93
Wildfire Hazard and Smoke Management.....	94
ENERGY SYSTEMS ORDINANCES: MINIMIZING WILDLIFE IMPACTS	
Issues and Model Wind and Solar Energy Systems Ordinances.....	95
MEASURES OF INCENTIVE AND ORDINANCE SUCCESS.....	96
ADDITIONAL INFORMATION.....	97
SECTION 6. GREENING DEVELOPMENT SITE LOCATION, REVIEW AND DESIGN99	
STEPS TO MAINTAIN A CONNECTED NETWORK OF HABITAT	100
Visual examples using the Conservation Data	101 - 102
Example Wildlife Friendly Developments	103
APPENDICES A. LISTED SPECIES AND PRIORITY HABITATS	
B. AGENCIES AND ORGANIZATIONS WITH TECHNICAL EXPERTISE	
C. HUMAN-WILDLIFE CONFLICT PREVENTION	
D. GLOSSARY	
E. RECOMMENDED READING	
F. FURTHER GUIDANCE ON CONSERVATION PLANNING	
Conservation Opportuntiy Areas, The Conservation Blueprint and Planning Atlas	
ECOLOGICAL REGION APPENDIX (available for certain regions)	

ACKNOWLEDGEMENTS

This project, developed by the Wildlife Diversity Program of the North Carolina Wildlife Resources Commission, was made possible through the support of the State Wildlife Grants Program, the North Carolina Tax Check-off for Nongame and Endangered Wildlife Fund, and the Wildlife Conservation Society.

We wish to thank the following experts for giving their time and input to this handbook:

Toddi Steelman, George Hess, and Chris Moorman (NCSU), Mark Megalos, Susan Moore, Kelley McCarter (NCSU Forestry Extension), Don Belk (Sentinel Landscapes Project) and Nathan Tarr (Biodiversity and Spatial Information Center), North Carolina State University

Keith Megginson, Jason Sullivan, Angie Birchett, and Tony Wilson,
Chatham County Planning Department

Allison Weakley, Steve Hall, Scott Pohlman, Kim Douglass, Janine Nicholson and Kristen Sinclair, N.C. Natural Heritage Program, the N.C. Conservation Planning Tool

Curtis Smalling, Audubon North Carolina

Mary Lou Addor, Natural Resource Leadership Institute

Paul Clark and Kim Nimmer, N.C. Division of Water Resources

Sarah Bruce, Triangle J Council of Governments

Will McDow, Environmental Defense Fund

Gloria Putnam, North Carolina Sea Grant

Sarah McRae and John Ann Shearer, U.S. Fish and Wildlife Service

Jeff Masten, Triangle Land Conservancy

Rich Ducker and Phil Berke, University of North Carolina

Grady McCallie, N.C. Conservation Network

John Morck and Jack Newman, N.C. Department of Commerce

Brenda Johnson, Sustainable Sandhills

Crystal Cockman, Land Trust for Central North Carolina

Janice Allen and Kristen Howell, N.C. Coastal Land Trust

Eric Mueke and Nancy Stairs, N.C. Forest Service

Judith Boshoven, Defenders of Wildlife

Patrick Beggs and Watershed Education for Community Officials

Ryan Bollinger and the Sandhills Conservation Partnership

Sara Childs, Duke Forest

Linda Giltz, Land of Sky Regional Council and Kristin Peppel

The following NCWRC staff contributed to this handbook. Jacquelyn Wallace researched and wrote the first edition. Kacy Cook updated the second edition. Anna Huckabee Smith began work on land use planning. Jeff Marcus provided guidance and editorial support and Brooke Massa assisted with GIS, editing and case studies. Numerous individuals within NCWRC provided support, feedback and edits, including: Jeff Humphries, Shari Bryant, Vann Stancil, Carol Price, Chris McGrath, David Cox, Shannon Deaton, Bob Curry, Fred Harris, Scott Van Horn, Scott Anderson, Jamie Hammerman, Ron Linville, Colleen Olfenbuttel, Evin Stanford, Cindy Carr, Ken Knight, Jon Shaw, Travis Wilson and all those who have offered comments. Administrative support is provided by Perry Sumner and David Cobb. Dain Palmer assisted with project evaluation. Gayle Myers maintains the website. Cay Cross provided edits. Jill Braden, Carolyn Rickard and Carla Osborne worked on the first edition. We thank Executive Director Gordon Myers, Chief Deputy Director Mallory Martin and the Commission for promoting and supporting this project.
